

## **COVID-19 Update:**

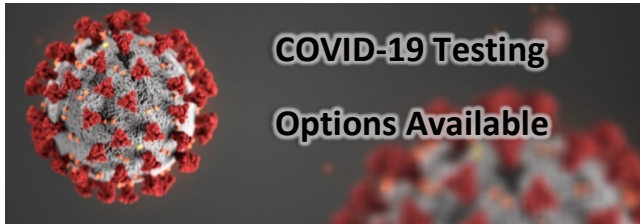

The top priority at NOHS Medical Clinic is always to ensure the health and safety of our patients/donors and our staff. As part of our commitment to the health and safety of our patients/donors, our staff and our community, NOHS closely monitors information shared by the Centers for Disease Control and Prevention (CDC), the National Institutes of Health (NIH) and the Oklahoma State Department of Health.

We are proud to provide a safe, sanitized and socially distanced clinic for our clients, patients and staff. Please be prepared to wear a mask per the City of Tulsa ordinance. If you do not have a mask or forget to bring one with you, we have you covered! Masks are available at the reception desk.

The following are steps that we have taken to ensure the well-being of everyone during this global pandemic of COVID-19 (Coronavirus):

- Screening Upon Checking In – Each patient/donor will have their temperature taken by our technicians and will be asked to answer questions related to physical symptoms (if any), travel and personal contact.
- Socially Distanced Reception Areas – Our reception area has been reconfigured to promote social distancing by the use of signs, floor markers and the removal of chairs for optimized appropriately placed seating. Our reception desk check-in window has a sliding glass window for additional safety precautions.
- Enhanced Cleaning Procedures – We have increased the amount of hand sanitizing stations at the entrance and throughout our clinic. We have enhanced the daily cleaning practices in all areas of our clinic, including sanitizing all equipment and devices using a medical-grade disinfectant approved by the Centers for Disease Control and Prevention (CDC).
- Employee Health Checks – Daily temperature checks and COVID-19 Screening Questionnaires for all employees.

- Employee Personal Protective Equipment – We provide all of our employees with the highest grade of protection including masks, gloves, face shields, eyewear, head and body coverings.
- COVID-19 Testing in Separate Facility – We are pleased to provide a separate testing facility next door to our main clinic, allowing for the option to be screened and tested for COVID-19 with privacy and limited contact.

- **Rapid COVID-19 Testing**  
Nasal Swab, antigen test, results within minutes
- **Rapid Flu A/B Testing**  
Nasal Swab, antigen test, results within minutes
- **Fast COVID-19 Lab PCR Test**  
Oral Fluid collection, results in 24-48 hours
- **Rapid COVID-19 Blood Antibody Test**
